An aerial map of the study area, showing a network of roads and surrounding land use. Four study sites are highlighted in a 2x2 grid in the upper right quadrant: B1 (top-left, light blue), B2 (top-right, light green), B3 (bottom-left, light red), and B4 (bottom-right, light orange). The sites are situated near a major road intersection. Other features include a large green area (possibly a park or sports field) in the lower left, a large rectangular area (possibly a school or industrial site) in the lower right, and various smaller plots and roads throughout the area.
